

Drawing Amendments

Figure 14 has been added to illustrate a representative structural member having two slots in each lengthwise side and two slots in each widthwise side. Figure 14 does not constitute new matter because support for such a structural member is provided in the original Specification at page 14, lines 1-9 and the original claims 4-20. Further, Figure 14 illustrates each of the limitations recited in claims 4-20, as amended, including the dimensional limitations thereof.
